Managing Jira Projects Cloud

14 Hours

Overview

AgileSparks is an **Atlassian Training Partner** and offers a variety of training solutions for different audiences around Atlassian products using original **Atlassian course material**.

This course prepares you to manage and configure company-managed projects in Jira Software and partner effectively with Jira Administrators:

- How to work with your administrator to configure Jira
- How to set up boards and issue types
- How to modify project details

This course covers all the tasks and best practices used in the creation, configuration, and maintenance of projects in Jira. It also covers topics that go beyond the scope of what project administrators can do. Learn how project administration is tied to Jira administration and the importance of maintaining the health of the system as a whole.
Who Should Attend

This course is designed for Jira Power Users, Jira Project Administrators, Jira Administrators, Team Leads, Agile Project Managers, and Scrum Masters preparing for certification.

Prerequisites

Before taking this course, we suggest you take Jira Essentials with Agile Mindset or have equivalent experience.
